## Portable Equipment Rental Tracker Plus With Keygen

This is the portable counterpart of Equipment Rental Tracker Plus, which means that the installation process can be skipped. As a consequence, the Windows registry and Start menu/screen are not going to suffer any kind of changes, and no leftovers will remain on the drive after its removal. Another important aspect we should mention is that by moving the program files to an external data device, you make it possible to run Portable Equipment Rental Tracker Plus on any PC you have been granted access to. Insert all kind of data, backup and restore it While the interface leaves a lot to be desired, it contains quite an impressive number of options. To be more precise, you can input all your contacts, along with vital information such as name, company, mailing and shipping address, type (acquaintance, employee, family, customer, sales rep. etc.) and phone number. It is also possible to add equipment rental orders, vendors, notes and a price point, create invoices for your customers, schedule events on a regular basis so as not to forget to participate to them, as well as create to-do lists, view expenditures and income. Several different types of calculators are also available, so that you can easily figure out time zone differences, convert the temperature from Celsius to Fahrenheit, view discounts and sales taxes and exchange currency. The program can be password-protected, and you can back up and restore all the information stored, with just a few clicks.

Conclusion All in all, Portable Equipment Rental Tracker Plus is a pretty efficient piece of software. The response time is good, it does not burden the computer's performance, yet the interface needs more improvement.
