RadLinker [Mac/Win]

RadLinker Crack Keygen allows you to "RadLink" per game/program from within the game's/program's manager, then without having to use a menu, you can customize your game/program settings as needed. RadLinker 2022 Crack works by creating a "RadLink" (shortcut) to your game/program, that acts just like a normal shortcut. And when you want to change your settings, there is no need to reboot or reboot your computer and a RadLink is an ideal solution in my opinion, so that you don't have to restart your computer to make a change. You can call RadLinker any way you want, including RadLink or RadLinker and RadLink. Here are some of the settings you can control with the RadLink: ⬜ Appearance ⬜ Font (Standard font, Title font, and custom font) ⬜ Search Program (Default search engine and proxy server) ⬜ Window types (default/maximize/minimize/shade/maximize:vertical/hideshow) ⬜ Taskbar visibility (Minimize to tray, Show on taskbar, or never visible) ⬜ Game Inactivation (Allow full screen video, Last/Max, Allow graphically intensive games, or Force always visible) ⬜ Game Settings (Fullscreen, minimum refresh rate, Default full screen, Offscreen, other) ⬜ Allow rasterization (graphically intensive games, or run with no acceleration) ⬜ GPU-CPU powermanagement (Off/Never, On, CPU limited or GPU limited) ⬜ Intel Processor Overdrive (On, Off, Auto) ⬜ AGP Issues (AGP override, AGP timer, AGP status) ⬜ PhysX Settings (Set PhysX to off, PhysXD3 or PhysXD3+) ⬜ OpenGL Settings (Force OpenGL 1, 2, 3, Force None, Force Software, or Force Hardware) ⬜ Direct3D Settings (Force, or do not force, FlipY (flip video Y plane), or do not flip Y) ⬜ Mipmapping (NONE, ON, and LOD) ⬜ Post Projection Settings (Force to "fullscreen", Width/Height, Post Projection) ⬜ Hacks (Override Driver change on ATI, Off/Always Force, Reduce/Standard GC, Low

RadLinker

RadLinker is a new tweaker/linker for ATI Radeon based graphics cards. RadLinker will allow you to create a "RadLink", a special kind of shell link (a.k.a. shortcut) to your games/programs letting you change their individual settings. A RadLink will look and act just like a normal shortcut except it's property settings can be custom tailored for your video settings. Some key features of "RadLinker" are: ⬜ Allows you to customize a games/program settings for all sorts of operations ⬜ Does not bloat the registry ⬜ Per game/program settings ⬜ Control over process priority ⬜ Per game/program clock rate settings ⬜ As many unique game profiles as your computer can hold ⬜ Custom profiles for all your games RadLinker: #3 - 11/24/04 - Updated with new features from ATI; added ability to link game menu - compare it with rdlinker v6 - increased maximum game profiles from 48 to 96 #2 - 10/21/04 - Updated with new features from ATI; updated linker instructions and added a few more features - compare it with rdlinker v5 - increased maximum game profiles from 48 to 96 #1 - 10/09/04 - First release of "RadLinker" -- 11/24/04 For ATI Radeon users only To install "RadLinker" you must have the latest ATI video driver installed. To install "RadLinker" 1. Download the "RadLinker" update file (looks like a.zip file) 2. Double click on the RadLinker update file to extract the archive contents to your hard drive 3. A shortcut file named "RadLinker" will be added to your desktop 4. Double click the RadLinker shortcut to run "RadLinker" 5. A shortcut for your program/games/games menu will be created in your programs menu. On ATI cards the shortcut for the game menu will have the name of the game if you can see this shortcut make sure you drag it into programs/games/games menu On ATI cards the shortcut for the game menu will have the name of the game if you can see this shortcut make sure you drag it into programs/games/games menu 6. A new icon will appear in your system tray that looks like b7e8fdf5c8

It's almost impossible to find a PC game or program these days that doesn't have at least a few very annoying settings or limitations. Some of them have "crippling" features that force you to live with outdated performance standards. Others are so "clever" that they force you to play games in the least ideal manner. And there are programs out there that cause your system to run slow, overheat and even seize up. These all add up to bad gameplay and frustrating gameplay. RadLinker aims to completely eliminate all of this from the gaming experience. With RadLinker, you can modify the game or program settings the way YOU want them to be, just like making a normal shortcut. Only, with RadLinker your modifications will persist for the duration of the game/program. RadLinker Features: ⬜ Autorun ⬜ User defined settings (no preset limitations!) ⬜ No other process running in the background ⬜ Control over process priority ⬜ As many unique game profiles as your computer can hold ⬜ Custom profiles for all your games RadLinker Download: RadLinker.zip (83.6 KB) INSTALL NOTE (including Windows install): I've been asked how to install it on Windows. It's pretty simple, you just need to install a few files to your computer: 1. RadLinker.exe 2. Start-RadLink.bat 3. ShellLink.cmd To install, simply extract RadLinker.zip into a folder and double click on RadLinker.exe. RadLinker Config Files: For a number of users, the default settings weren't as accurate as they wanted. I've made them all in a "Settings" folder, which you can simply double click to open. They will be categorized by menu choice. RadLinker Usage: (Examples): If this is the first time you have opened RadLinker, simply double click on "RadLinker.exe". From the menu, select "Open" -> "Settings" Browse to the desired folder and select the "Settings" folder. Click on "Ok" to save. In the "Settings" folder, you will see "test.cfg", "00_info.cfg", and "00_save.cfg". Since these files are the only things to change, you can just delete

What's New in the RadLinker?

RadLinker is a new tweaker/linker for ATI Radeon based graphics cards. RadLinker will allow you to create a "RadLink", a special kind of shell link (a.k.a. shortcut) to your games/programs letting you change their individual settings. A RadLink will look and act just like a normal shortcut except it's property settings can be custom tailored for your video settings. Here are some key features of "RadLinker": ⬜ Absolutely no programs running in the background ⬜ Does not bloat the registry ⬜ Per game/program settings ⬜ Control over process priority ⬜ Per game/program clock rate settings ⬜ As many unique game profiles as your computer can hold ⬜ Custom profiles for all your games RadLinker Demo Links: RadLinker is free to use. There's no "obtrusive" or "crap" advertising. If there's something you don't like please let me know and I'll fix it or remove it. You can also contact me if you find any bugs or problems. If you happen to be interested in teaching people about the way computers work, I also recommend you check out "www.modemation.com". If you would like to pay for my time, I suggest my "PayPal" link. It's listed in my profile. (You can also pay directly from within the program. Please contact me if you want to set up a direct PayPal payment.)
